

**A**

**I wrote this last night from the bottom of my heart. I usually write my feelings at night in silence, darkness and solitude.**

**Kortritjk this room and the people in it are a door to the world. I will explain the story of this quote at the end.**

**1**

**First of all, thank you for inviting me here. The organization was very good, the use of time was great. The food was good. The participants were very friendly.**

**I would like to thank the participants here for their tolerance and patience with me because of the language. I knew language would be a problem for me. But I came anyway. I came.**

**My goals were to learn about the subject and drama. To meet new people and culture. To learn and teach about the prophet Joseph. To rekindle the love of humanity in me.**

**I achieved my goals, so I am very happy to be here.**

**2**

**We shared the task among ourselves for the gift.**

**So when I gave this as a gift, I wanted it to be relevant. The heart expresses love, goodness, beauty.**

**Birds represent freedom, peace and goodness. That's why I thought of such a gift.**

**It's nice to have two religions unite with us in this room. Different languages, religions, cultures came together, which humanity needs.**

**3-**

**I did not think of my dream or my dream that I wanted to see today or yesterday. I have been chasing this dream and this dream for thirty years. My dream was to build a new world full of love, to create islands of peace where people live in peace, a world that accepts everyone as they are, a world where I can have a heart where I can sit with each other in my heart.**

**That's why I'm here. I'm in the right place and I'm happy that I made the right decision. I didn't want to miss this opportunity. I've worked for years**

**as a volunteer in aid organizations. After I came to Germany, I worked as a volunteer in Tafel. And I try to help people with physical and mental disabilities.**

**When I was about 12 years old, I was not thinking of reading. One of my teachers set a good example for me. I decided to study. He taught me what I have just expressed. For 30 years I have lived with the dream and hope of this and I will continue to do so. I will explain why I wrote this at the end of my article.**

**Why did I tell this : The story of Prophet Yusuf, as told in the Quran, was an example for Prophet Muhammad. That's why I think we should tell the story of Prophet Yusuf as an example.**

**4-**

**One of the most beautiful things I gained in this program was this:**

**Prophet Muhammad (peace be upon him) is a piece of meat in a human being. If it is good, the human being is good. If that piece of meat is bad, the human being will be bad. That piece of meat is the heart.**

**With this program, the feeling of goodness in me was revived once again like the greening of trees in spring.**

**I believed that it could happen here. The topic of the program was good. Because Prophet Yusuf himself is beautiful. I think, looking at the faces, gestures and mimics of the participants here, we think the same. Prophet Joseph was also distributing and sharing food to those who were starving.**

**5-**

**An important aspect of this program is this:**

**The world has become a village. Technology has developed, the internet has become widespread, artificial intelligence has entered our lives. Despite all this, people today live in difficult times and under harsh conditions. For years there was a struggle with corona disease. In different parts of the world, people of the same religion or race are waging war against each other.**

**But if we could share as human beings, all the blessings of the world would be enough for all of us. They can live in peace. Unfortunately, this is not happening today.**

**It shows once again that there is a need for such unifying programs and more people.**

**Forgetting what his brothers had done, Joseph showed them love and gave them flowers.**

**6-**

**With your permission, I would like to read the meaning of two verses from the Quran.**

**"Peace is good. There is good in peace." (Surah al-Nisa-Woman, 128)**

**"Whoever kills a human being, it is as if he had killed all mankind; and whoever gives life to a human being, it is as if he had given life to all mankind." (Surat al-Ma'ida, Verse 32)**

**The recent wars and acts of terrorism in many parts of the world have no contribution to humanity, peace and tranquility.**

**Murder, hatred, violence and war can never and should never be tolerated. I think it should never be applauded.**

**According to the verse I just read, a Muslim can never be a terrorist, a terrorist can never be a Muslim. Islam forbids such behavior and calls for peace, mercy and compassion. This is the meaning of the word Islam.**

**No matter what religion, language, color, race, nationality or worldview, terror and murder should not be committed. And every human being has the right to live.**

**As human beings, we should work for peace, love, respect, pray and keep the peace.**

**The story of the title :**

**30 years and 2 months ago, in a small village in Azerbaijan, under difficult conditions, I said: This is the gateway from Azerbaijan to the world. I have been living with this hope for 30 years.**

**7-**

**Excuse me, I have a proposal. I said this program is good. We have 12 participants here. Very good work has been done. These studies should not be limited to 12 people. We were doing scientific projects by inviting students from different countries of the world and we were also inviting the**

**public. The short presentation we made last night was also very good. The reenactment of the theater scenes today was also very original. I think it should be opened to the public. If it is legal and the conditions are appropriate, we can make our presentations to the public. More people can be reached. We can explain this especially to our young people.**

**Kortrijk this room and the people in it are a door to the world. I will explain the story of this quote at the end.**

**Thank you for listening to me.**

**I wish all participants success in their lives and a healthy life.**
